## M. N. G. OFFICERS TO CAMP TWICE

TRAINING AT GRAYLING IN  
JUNE TO PRECEDE GRAND  
RALLY OF TROOPS IN AUGUST.

Nearly all the commissioned officers and 520 non-commissioned officers of the Michigan National Guard will go into camp at Grayling twice this summer. The first training camp will be held for four days, June 19 to 23, inclusive, not including travel to and from camp. The first camp is a preliminary school of instruction for all officers and 10 selected men from each unit in the guard. The 10 men selected from each unit will include principally non-commissioned officers and privates of particular ability, including mess sergeants, supply sergeants, company clerks, one automatic rifleman and one cook from each unit.

**Army to Send Instructors.**  
All officers and men who will train at the first camp will leave their home stations June 18. They will complete their training the afternoon of June 22, and will break camp the morning of June 23.

This training camp will be one of the important features of the military camps to be held in Michigan this summer. Instructors from the regular army under Major Loren C. Grieves, senior instructor of the Michigan National Guard, will be on duty, and everything will be done to give the officers and men the greatest amount of training in the four days of camp that is possible.

The big camp of the Michigan National guard will be held from August 8 to August 22, inclusive. Every unit in the guard, with the possible exception of the One Hundred and Nineteenth Field artillery, will be in camp during this time. It is possible that the field artillery will camp at Grayling from August 14 to August 28, inclusive, but it may be sent to Camp Custer at that time for training.

**No Grand Maneuvers.**  
According to orders from the war department there will be no grand maneuvers, but intensified training in smaller units, this summer. In this year's summer training camps it is expected to lay the foundation for larger maneuvers which will take

place when the guard of the United States is brought up to its authorized strength.

The training camp in June will include these branches of the service. Infantry, cavalry, artillery, signal corps and miscellaneous troops. The big camp in August will include 133 commissioned officers and approximately 2,500 men from the Infantry, Cavalry, Signal Corps and miscellaneous troops.

## HOSPITAL-DAY FRIDAY, MAY 12

ANNUAL EVENT WILL BE OBSERVED BY PEOPLE OF AMERICA.

Mercy Hospital to Hold Open House to Visitors.

Hospital day, an all American occasion, will be observed next Friday, May 12. This day is set aside when it is desired that all give thought and consideration to these institutions of mercy and to recognize in them the great public benefactors that they are.

Mercy Hospital will observe the day by holding open house and the public is invited to visit the hospital between the hours of 2 and 5 p. m. when tea will be served. There will be no charge for this hospitality and all will be cordially welcomed. While many hospitals make this a day when donations are solicited, Mercy Hospital will not do this, but as an institution of charity, they will be pleased to accept any donations that the people care to offer.

It is only occasionally that some of us have cause to think of our wonderful hospitals and of the great blessings they are to humanity, therefore, we believe it should be a privilege to the public, on such occasion as Hospital day, to be generous and not only partake of the hospitality of the hospital sisters, but also give as liberally as our finances and our conscience may permit. Remember Hospital Day Friday, May 12, and also that you are invited to visit Mercy Hospital at any time between the hours of 2 to 5 p. m.

**ACCOUNTS DUE RAILROAD STORE.**

All accounts due the Railway Mens Union Co-Operative Association are payable to R. N. Martin and J. L. Martin. Phone 1024 or 7L 5-11-2.

## MERRY TRAVELERS WELL PATRONIZED

HOME TALENT PRODUCTION  
MADE BIG HIT.

The Merry Travelers, a home talent musical comedy by the pupils of the Grayling schools, assisted by some of our other local people, that played at the school auditorium last week, Thursday and Friday nights, proved a very pleasing entertainment. It was well attended each evening and the financial receipts produced a good fund that will be used in the purchase of a moving picture machine for use in the public schools, for educational purposes. It was thru the efforts of the Good Fellowship club that the entertainment was given. The play was given under direction of Irene Douglas Reynolds.

The play was made up in three acts. The first of which showed an American Hotel in London. Act 2 was a garden in Spain and act three a carnival at Coney Island. The principal character parts were taken as follows:

Mrs. Travelers, a society lady—Mrs. A. M. Lewis.  
Mr. Travelers a hen-pecked husband—Holger F. Peterson.  
Grace Travelers, their daughter—Josephine Westcott.

Billy Landon, who likes the ladies—Joe Cassidy.

Hotel employees: Clerk—Clarence Brenner; Bell Boy—Emerson Brown; and French Maid—Mrs. Roy Milnes.

College Boys: Frank Malcom—Earl Nelson; Ned Walter—Tracy Heath and Jack Brewster—John Phelps.

The Duke of Boredom—Harold Jarmin.

Miss Bachelor, who is willing to be married—Miss Donna Lockhoff.

Moses Seeds, deaf old bachelor—A. W. Morrow.

Samantha Seeds, who tries to look after Moses—Ann Walton.

Hezekiah, just in from the country—Dr. Howell.

Gypsy Dancer—Azilda LaGrow.

The remainder of the cast was made up of girls and boys of the school. It was a merry crowd and the play was artistic, musical and funny. The parts were well taken and it is hard to conceive how better principals could have been selected for the several characters. They had but about ten days in which to learn their parts and all deserve credit for the faithful manner in which they worked to learn them, and also for the excellent manner in which the play was given. The folk dancing by the little ones was specially pleasing. At the close of the first act, before the curtain, Misses Margerthe and Ella Hanson sang "April Showers" and gave a very pretty and graceful esthetic dance.

The play closed with a spectacular scene in which the army and navy, with flags floating, stood at guard while Miss Ruth Taylor as Columbia passed between them and mounted a platform in the rear of the stage, while the orchestra played "The Star Spangled Banner."

Miss Hazel Abbott presided at the piano throughout the play. During the intervals before and between the acts, music was furnished by the high school orchestra and those who heard them could well feel proud of the excellent progress they have made during the school year. Their music was very pleasing.

The receipts from the play will net the Good Fellowship club about \$125, which is about half the amount needed to pay for a motion picture machine. The ladies are hoping to be able to earn the remaining amount soon so that the school may have the use of such a machine in their school work.

**DINING ROOM NOW OPEN.**

Our dining room is again open and we invite the public to come here for their meals and lunches. Everything clean, appetizing and tasty. Shoppenagon Inn.

## Farm Bureau Notes

R. D. BAILEY  
County Agricultural Agent

### Hit It Hard.

It's going to be a splendid spring for seeding to clover and alfalfa. Hit it hard. Put in every pound of extra quality grass seed that you can. High class clover, adapted to this climate, put in on a seed bed that has been rolled and dragged over and over, and inoculated with culture from our Agricultural College, is almost certain to give pleasing results.

A lot of people are inoculating this spring. The county agent is kept busy ordering the bottles from the college. A 25 cent bottle inoculates a bushel of seed. A bushel of alfalfa or clover is 60 pounds. Put 10 pounds on an acre and a bushel covers 6 acres. Thus, the cost is distributed over one-sixth of 25 cents, or 4-1-6 cents. Thousands of farmers report that it pays to inoculate.

I sent every farmer in the county a bulletin explaining inoculation. Why not read it? It is no trap to get your money.

I keep none of it; and, the College furnishes the inoculation material at cost as a service to the people of the state.

**"Them Days Is Gone Forever."**

No use to hang back, and argue, and tell how we didn't used to have to inoculate. Times have changed. "Them days is gone forever."

Why not fall into line and cheerfully use the best practices that are giving others good results. No one trying to deceive you, nor lead you into farm practices that will injure or cause you loss.

### Pound the Stuffing Out of It!

Had you heard Professor Rather speak last Saturday afternoon at Grayling Grange Hall, you would have heard him say that the best seed beds on which to get certain catches of grass seed are very firm seed beds.

You would have heard him tell how a farmer's horse got into a newly seeded field, one night, and rolled to its heart's content.

The farmer, who had not awakened to the advantages of the firm seed bed, was very angry.

He changed his tune, however, when, later on, his best stand of grass was where the horse had rolled.

### Roll! Roll! Roll Your Field!!!

If you have not a roller, make a floor or plank, cut 2 or 3 or 4 by 10 plank, six feet long, and laid on each other like clapboards. Stand on it and ride. Cover a lot of ground in a day, just as good as with a roller.

### Never Do It.

Never have a field rolled or smoothed with a float as the last tool to go over it.

Rolling is all right, fine, splendid, but should be followed by spike tooth drag. The last tool marks on a field should be at right angles to the prevailing winds. Doing this greatly decreases evaporation of the water so precious to grow crops with.

### What Professor Taft Said.

Last week, Professor L. R. Taft, greatest fruit and horticultural authority honored the county agent with a visit.

The professor most highly praised the fine sod or lawn that Director M. A. Bates has produced at the school house. On the few vacant spots in that lawn the professor suggested raking in a trifle of Kentucky blue grass (Poa pratensis).

He did not examine the maple trees on the outskirts of the school grounds; but, did examine those maples from Victor Salling's residence to Olson's Ditch Store corner, and found a large portion of them affected with oyster shell scale, and the health and life of some threatened.

Spraying with Scalene was recommended.

The county agent confessed that he did not know that the scale would attack maples; but, the magnifying glass showed that it was, and that it was damaging a mountain ash that we examined.

### Spray.

All fruit trees that we examined were found to be affected with oyster shell scale. Probably there are other trees in town similarly affected. The only remedy is to spray.

### How to Know.

A fruit tree is valuable for what it cost, labor expended on it, room it has taken, and on account of its possibilities of producing pleasing and healthful fruit in the future.

Why let such a tree perish through neglect? Spray.

When a navigator does not know where he is at he looks at his charts. So, we can look at the spray chart posted in the window of A. M. Lewis' drug store and easily determine what to use. I have 250 such charts to give away.

Mr. Lewis, after proper investigation, has, with praiseworthy zeal, purchased an adequate supply of spray material required in the chart.

The spraying season is here, right now. One spraying is not enough. Scan the chart. Get the dope. Squirt it on. Repeat as directed by chart.

We didn't used to have to spray; but, "Them Days Is Gone Forever."

### Lawns.

There are some nice lawns in Grayling. There ought to be more; and, in the country too.

If some can make them, others can, and feel a thrill of satisfaction in the victory over dreary sand.

Mr. M. A. Bates, when asked how he did it at the school house, laconically stated; "Black earth, two inches. Well rotted stable manure, same, forked together. White Dutch clover (Trifolium repens). Lots of water;

and there you are."

### What Fifty Cents Will Do.

Fifty cents will buy one pint formaldehyde. One pint formaldehyde, if atomized on with a potato sprayer, will treat fifty bushels of seed oats, (cent a bushel, isn't it?) and prevent smut.

I sent every farmer in the county a leaflet showing clearly and simply just how to do it.

Tut, tut! You don't mean to say you kindled the fire with it! Well, now that's too bad. I haven't any more.

## T. N. T.

AN EXPLOSION OF PEDIGREED TRUTH.

(Notes of the Grayling Schools)

Tis the glorious spring!

Here and there flowers are seen.

Birds, early and late, now sing;

Fishes are jumping from the stream.

For flies that linger on the surface.

At night the frogs have their circus.

Each trying to drown his companion.

With his peculiar musical twang.

Everywhere you look is green.

From the grass, from the leaves,

Almost everything it seems.

Tis SPRING!

That glorious spring.

News.

Myrtle Mitchell and Mabel Green are back in school after two months absence.

Laura Sammons, George Austin, Anabelle Brenner, Harold Coffman, Kathryn Grass, Virginia Morrissey, Arthur May, Grace Parker, Mary Esther Schumann, Helen Sorenson and Eleanor Gorman were neither absent nor tardy during the month of April.

A new picture "The Close of Day" is adorning the walls of the third grade room.

Betty Jane Welsh of the 3rd grade is ill with tonsillitis.

Eva Ostrander has left school, and has accepted a position in Frank LaMotte's restaurant.

All the eighth graders of the Grayling High School expect to take the State examination Thursday and Friday.

Mr. Howard Parker of Ann Arbor visited school Friday afternoon.

Mildred Sherman, Agnes LaBrash and Ruby Dyer have left school.

Professor Jackson, one of the State Inspectors was here Monday afternoon.

It's rather alarming the way the students are leaving school now when there is such a short time left this term. We wonder if these students realize what they are sacrificing. We ourselves can judge only to a small degree, but that alone is enough. You are losing one of your greatest chances in life. If you don't believe it now you will eventually.

**Tit-Bits.**

Helen Zeibell: "What is genealogy?"

Miss Bellows: "In this book, it means to trace the family name back generations."

Helen Z: "Could you trace it back to when I was an ape?"

Ona Lozen: "Can you keep a secret?"

Francelia Failing: "I'll tell the world."

Did you ever think what a lot of good you might have done in the

world if you hadn't made up your mind to begin tomorrow?

Mr. Morrow: "What is a marine?"

Creva Hewitt: "A sailor that fights on land."

"Mirandy, why did you jilt Tobe?"

"I heah he done promised four families I'd wash for 'em soon as we got married."

Beauty is skin deep, and sometimes it is a skin game, too.

When a bachelor has so much money that it troubles him he can easily find some woman who will be glad to share his troubles with him.

Mr. Gnaggs: "And you used to say you wouldn't marry the best man living."

Mrs. Gnaggs: "Well, I have the satisfaction of knowing; that I kept my word."

Whenever you hear one girl speak of another as being good and sensible it is unnecessary for her to add that she is homely.

In after years it usually gives a married man a headache every time he hears somebody whistling the wedding march.

She—"My father is the greatest whistler in this country."

He—"He doesn't come up to my father."

She—"Can your father whistle good?"

He—"I should say so. Why, when my father starts whistling, every man stops his work."

She—"How is that? How can he do it?"

He—"Well, you see, he blows the whistle for lunch at the factory."

The End.

GEORGE BURKE, Grayling, Mich.

# Egypt, Again Independent

View of Cairo.

(Prepared by the National Geographic Society, Washington, D. C.)

It is difficult to shake the dust of the ages from the land of the Nile and to realize that there is an Egypt of the vibrant present. The recent announcement of the withdrawal of the British protectorate from the country, however, and the setting up of its first king in more than 1300 years turn the spotlight squarely on the modern aspect of this long civilized region.

The map lacks much of giving one the true picture of Egypt. The country is shown covering a large area of northeastern Africa. This is the nominal Egypt. The real Egypt is a narrow, tortuous strip on either side of the Nile and the fan-shaped delta surrounding its mouth. Save for a few oases outside the river valley, the rest of Egypt is but a sea of sand practically uninhabited. Figures confirm this, for of the more than 350,000 square miles of Egyptian territory only about 12,000 can ever be cultivated; and a considerable part of this "habitable" area has not yet been reclaimed.

Looking only at the surface of Egypt's institutions, one is likely to decide that the changes since the days of the Pharaohs have been great, but when certain fundamentals are considered the wonder may well be at the lack of change. To be sure, the Egyptian of today speaks Arabic instead of his old tongue; and Osiris, Isis and Horus have been long forgotten for Allah and Mohammed. But in spite of numerous invasions, the blood of the great majority of the population has been altered hardly at all.

Egypt's resources are almost wholly agricultural, and in the agricultural scheme the millions of fellahs are the ultimate units. They work long hours scratching the soil with crude implements, or tediously raising water in skin buckets attached to pivoted poles that the thin stream may save their plants from parching. Taxes are heavy, and it is the lowly fellah who keeps the treasury supplied. Living conditions are very poor; mud huts house most of Egypt's thirteen millions. In the huts they wear little more than a loin cloth, and the younger children of the villages are naked. When the fellah is "dressed up" he wears a rough shirt and loose trousers.

## Cairo the Wonder City.

The stamp of the outside world and of the Twentieth century on Egypt is to be seen chiefly in Cairo, that verdant island which has superseded Baghdad as "the city of Arabian Nights." Cairo is a living kaleidoscope, with its gleaming and drab human fragments tumbling into a changing pattern not merely from East and West, but from North and South as well.

White-robed Bedouin, black-fellah, shiny-black Soudanese, and central African negro, swarthy Turk, Persian Hindu, Mongolian, dusky Moor, Italian, Greek, Jew, Armenian, and the whiter folk from Europe, America and the antipodes all are jumbled together in Cairo, their various tongues making a babel that can hardly be duplicated at any other spot on earth. The life that flows along the streets of Cairo could not be duplicated anywhere else in the world. At times the Western observer is likely to be reminded forcibly of circus parades on Main street back home. Swaying camels move along with brightly dressed riders perched upon them or with suspended cars in which are veiled damsels, while drummers thump their rhythm and life blowers emit their shrill notes. Snake-charmers pass along with their bags of snakes; jugglers perform in some nook; bullock-carts and laden donkeys compete for space with shining limousines.

## Cafes in the Streets.

The *al fresco* cafe is one of the most characteristic marks of Cairo. It is not the more or less well-ordered affair of the boulevards of Paris. Sidewalks and streets overflow with seemingly innumerable chairs and tables until often a single file of pedestrians can hardly force its way through. One gets the impression that few people need to work in Cairo. Even in the mornings the chairs are filled with apparently prosperous men sipping coffee or sweetened wa-

ter, puffing cigarettes and talking. Toward noon they disappear for their siestas, but again at four or five o'clock they are out in force and remain far into the night. Among them circulates a stream of peddlers offering for sale almost every conceivable ware from sweetmeats to mouse-traps and underwear.

The dweller in Cairo who has not his servant or his group of servants is low indeed in the economic scale. These serving men carry tiny bundles for their employers or masters. They run ahead of carriages to clear the way; they fan away the flies; and one after another they come in troops into the presence of the prosperous to bring smoking materials or to offer a bewildering succession of drinks and foods. Life is hard and a few cents a day satisfies them. Even the porters who carry heavy bundles and the boatmen who laboriously pole the Nile craft against the current work 12 or 15 hours for little more than a many cents.

In Cairo is the Oxford of the Mohammedan world, the University of El-Azhar. It seems a queer "university" to those familiar with the higher institutions of learning of the West. Its classrooms are the halls and niches of a mosque. Its professors receive no salaries but are primarily religious officials, government employees, lawyers and the like who teach in addition to performing their regular duties. The pupils, who at times number more than 5,000, squat on mats while their instructors lecture. This premier college of the Moslem world has been in existence for 950 years and hundreds of thousands of students have passed through its doors. It has been the center of the nationalist propaganda which has sought entire freedom for Egypt. More, it is the hub of Pan-Islamism, which, like its companion movement in the past—Pan-Germanism—would combine its own culture with militarism to dominate the world. But Pan-Islamism would go further, and would bring the world, as well, under the religion of Mohammed.

## Glimpse at Egypt's Past.

The Egypt that emerges now again as a kingdom has had a checkered history, but that is reasonable enough when one recalls that it had one of the earliest of starts. Here is one of the first places in which man lived an ordered life and left records of his activities. Some anthropologists, in fact, look upon central Africa as the place of origin of man, and upon Egypt as one of the first way-stations in his diffusion over the other continents.

After the long reign of the Pharaohs Egypt had its Grecian and Roman regimes, which brought but few changes. Then in 641 A. D. came the invasion of the Saracens, from which time began Egypt's Mohammedan history. For a time the country was a province of the Arabian caliphates; later it was independent, though still Mohammedan, under the Mamelukes; and finally, in 1517, it became a province of Turkey, which controlled it first through a governor and later through a sort of hereditary viceroy or khedive.

For the third time Europe took a hand in the affairs of Egypt in 1798 when Napoleon won his battle of the Pyramids. The British drove the French out in 1801 and turned the country back to Turkey. In 1849 came the building of the Suez canal by De Lesseps, which has given Europe an ever-growing interest in Egyptian affairs. To protect European land-holders France and Great Britain made a joint intervention in 1879 and for a while controlled finances. The uprising in 1882 against the khedive was suppressed by the British alone, and after that they controlled finances without assistance. The government was in effect Egyptian with British assistance and with the nominal suzerainty of Turkey acknowledged. When the World war began Great Britain established a protectorate, abolished Turkey's suzerainty, deposed the Germanophile khedive, and appointed another prince of the family to be sultan. The British protectorate is now being withdrawn, but instead of the former Turkish interest being restored, Egypt is set up as an independent kingdom.

## Safety Lunches.

When animals like cows, sheep or deer go through the performance of "chewing the cud" they are carrying out a function which their ancestors discovered was a means of adding them to escape from their enemies. These animals of long ago were always in danger of attack, so they got into the habit of eating as much grass and herbage as they could in a short time, and then retiring to a place of safety.

The grass was stored in a special chamber, and, once out of harm's way, the animals proceeded to re-chew the food and swallow it again.

## Attract Ducks to Nests.

The elder duck of Iceland is exceptionally fond of bright colors and musical sounds, and at the approach of the breeding season the natives hang out gayly-colored rugs and bells in order to attract the attention of the ducks to the nests which have been carefully prepared for them on shore.

## Crepes Play Leading Roles; New Annette Kellermans

IN THE drama of summer fashions for afternoon crepe continues to hold the center of the stage. Its bright rivals, sprightly tulle and distinctive foulards, cast in important roles, play their parts equally well, but the exquisite texture of crepe lends itself to drapery and there is a flare for draperies. So long as it lasts the suppleness of crepe will make them pre-eminent in the aristocratic company of silks that foregather in affairs of afternoon or evening.

Various new crepe weaves with new names, are presented every now and

man models. If you swim, if you are a perfect thirty-six and if you are wise, you will wear Annette Kellermans bathing togs when you go for your daily plunge this summer. then, all bearing a family resemblance to the incomparably beautiful crepe de chine that antedates them. This is the crepe chosen for the exquisite gown shown here with draped bodice and sleeves. It is generously beaded with crystal beads set about the neck and down the top of the sleeves and about the bodice where it blouses over a grille similarly adorned. The skirt is almost covered with these twinkling crystals, but they are left off the long, bias sash of the material which falls in two pointed ends at the left side, where a short drapery is placed over the hips. their neck openings and the treatment of the arm's-eye. Color and color combinations also lend them interest. The suit pictured is in dark blue piped with white, and has a V-shaped neck opening. It fastens with buttons on the left shoulder and has separate trunks. Jersey cloth in a two-color combination makes the suit for a young girl. It has a semi-fitted body and the trunks are joined to the overgarment which fastens on the left shoulder. The arm's-eye is built out with a fold of the lighter colored jersey. This youthful suit makes possible many pretty color combinations and is very

ters of flowers, made of the crepe, are set on the grille and a sprinkling of beads sparkles on more.

A simpler and more youthful model appears in company of its brilliant rival, but it has distinguished charm of its own. A full skirt with deep facing is cut in scallops and has a novel adornment of roses that head loops and ends made of crepe folds. The roses are set about the grille and on the sleeves, which are scalloped and draped.

Swimming suits like these shown here are known as Annette Keller-

## HAS FIRST WELL DAY IN 6 YEARS

Huntington Citizen Could Neither Sleep Nor Eat With Any Satisfaction Before He Got Tanlac.

"Before taking Tanlac I had not seen a well day in six years," said W. R. Peoples, 328 22nd St., Huntington, W. Va.

"It seemed like I had lost my health for good. I could neither sleep nor eat with satisfaction. I was badly run down, nervous, had no appetite and had to force down every mouthful I ate. Even then my food soured. I would fill up with gas until I had intense pains in my stomach and chest. Headache almost drove me mad, rheumatism in my arms, shoulder and hips kept me in pain all the time, and I had to force myself to work. "Tanalac went right after my troubles. On four bottles I gained ten pounds and the rheumatism and stomach trouble soon left me. My wife has given a statement about the good Tanlac did her, and I am glad to add my endorsement of this wonderful medicine."

Tanalac is sold by all good druggists.

## A REWARD OF \$5,000.00

Would be a small amount to pay for saving a man's life. If you could save your life for a dollar bill would you hesitate to spend it? You risk your life everytime you drive your car in the rain because you can't see through your windshield. A dollar bill sent to the Baltimore See-Thru Corporation, Baltimore, Maryland, will ensure you having a clear windshield for the next three years, as their preparation is guaranteed to keep your glass as clear as a summer's day. Nothing like it on the market. One application will last as long as a rain storm even if it lasts a month. It is absolutely guaranteed to give satisfaction or money refunded. Send for it today and be prepared for the next rain storm.—Advertisement.

Ladies make me laugh—ladies who dress like Kewpie dolls; ladies who are always arranging slumping parties; ladies who arrive at the theater during the middle of the first act and practically stop the performance; ladies who tell fortunes; ladies who spend 12 hours a day in restaurants; ladies who organize welfare leagues and are forever talking about them; ladies who know all about relatives; ladies who telephone calls, gossip and rattle stories; ladies who are habitually one hour and twenty minutes late for all appointments; ladies who are shocked at anything they don't understand; ladies from Columbus, O., who, having spent nine months in Paris, completely forget their native tongue; ladies who have never been understood; ladies who don't know when a romance ends; ladies who are continually dwelling on the fact that they are ladies.—From Life.

## The Thrifty Citizen Who Caught the Plugged Nickel

MR. BROWN had swallowed his lunch and had paid his bill. Cautiously he counted his change. "Here!" he said, sharply, "Take back this plugged nickel and give me a good one!"

Mr. Brown walked proudly out. They couldn't fool old Brown.

But old Brown had fooled himself.

Brown's day was heavy and dull. He lacked "pep." There was a mid-afternoon drowsy spell when he needed to be awake—the direct and natural result of heavy, starchy breakfasts and lunches, taken on faith and without question as to value—just because the food looked and tasted like food.

Thousands of shrewd business men who count their change, take their food for granted.

That's what builds up the sanitation business, and puts the tired "all-done" feeling into the mid-afternoon of a business day.

Grape-Nuts is a scientific food whose delicious, appetizing flavor and crispness are an introduction to well-balanced nourishment—a nourishment easily and quickly assimilated, so that body, brain and nerves are well fed and kept free of the stored up poisons left by so many ill-selected foods.

Served with cream or good milk, Grape-Nuts is a complete food, always ready, always a delight to the taste—and always a safe selection for the man who thinks his stomach is entitled to some of the same protection he gives to his pocket.

## HOW TWO WOMEN ESCAPED OPERATIONS

Doctor Advised Use of Lydia E. Pinkham's Vegetable Compound

### Happy Results in Both Cases

St. Joseph, Missouri.—"Both of my sides swelled and hurt me so that I could not move or do any of my work. There was heavy pressure and pains through my lower organs and the doctor told me to try Lydia E. Pinkham's Vegetable Compound for these troubles. He said I had this one chance, and if the Vegetable Compound did not help me nothing but an operation would. After taking several bottles I felt it was helping me and now I am able to do my own work. If my testimonial will help others I shall be glad for them to read it and hope your Vegetable Compound will do them as much good as it did me."

Mrs. WM. LOCKMAN, 618 N. 4th St., St. Joseph, Mo.

White Plains, N. Y.—"I had such a pain that I could hardly walk and the doctor said that I needed an operation. I was sick for a year before I started taking your medicine and I could not work. I saw your advertisement in a little book and that is how I came to take Lydia E. Pinkham's medicine. I have been taking the Vegetable Compound and Lydia E. Pinkham's Blood Medicine, also Lydia E. Pinkham's Liver Pills and used Lydia E. Pinkham's Sanative Wash and the capsules and prescription recommended. I am doing all my work and have gained twenty pounds. I am taking the medicines still, but I feel fine. You have my permission to use this letter for the good of others."

Mrs. MARY MARK, 57 Hamilton Ave., White Plains, N. Y.

Some female troubles may through neglect reach a stage when an operation is necessary. But most of the commoner ailments are not the surgical ones; they are not caused by serious displacements, tumors, or growths, although the symptoms may appear the same.

When disturbing ailments first appear, take Lydia E. Pinkham's Vegetable Compound to relieve the present distress and prevent more serious troubles. Many letters have been received from women who have been restored to health by Lydia E. Pinkham's Vegetable Compound after operations have been advised by attending physicians.

Lydia E. Pinkham's Private Text-Book upon "Ailments Peculiar to Women" will be sent you free upon request. Write to the Lydia E. Pinkham Medicine Co., Lynn, Massachusetts. This book contains valuable information.

One Day Late. Moving to a strange city and settling in a new home has kept me busy for some time, so busy I neglected to attend church.

One day the minister was calling on our street and dropped in to see me. During his call he invited me to attend a special service the following Sunday. I promised to be there, and to convince him that I really meant to fulfill my duty towards the church I told him I had already rented a pew which I hoped to occupy regularly.

At the first opportunity I telephoned the church steward to secure a vacant pew, only to be informed that no seats were rented—all were free.—Chicago Tribune.

## The AMERICAN LEGION

WILL PLAY BALL IN JAPAN  
Ward Gilbert, Ballplayer, and Emona Clay, Who Served as Gobs, Off for Tokyo.

Johnny Jap is going to have another look at the great American game as it is played by the baseball nine of Indiana University. The rich show men of Tokyo and the merchants of Nagoya are going to carry and trade with two members of the team who left Seattle, Wash., to the tune of a band and the cheers of the American Legion. Ward O. Gilbert of Kokomo, Ind., one of the Hoosiers' pitchers, went back to college after 11 months as a ballplayer in France. Emona Clay of a gobs. When the Legion men in Seattle discovered this they turned out and wished the pair good luck.

From Seattle the Indiana party went straight to where the sun rises. There Japan college teams will be taken on, but they will be the guests of Waseda University of Tokyo. So great has been the interest shown in the visit that the Japan university has guaranteed the American players \$15,000 for expenses. Baseball has been introduced in Japan before. Two other American college teams have traveled the Pacific and shown their wares.

Tokyo has an American Legion post and its members are planning to show the ex-service men during the Orient and its attractions during the Indiana team's stay.

### TO AID THE EX-SERVICE MEN

Mrs. Madge King Johnston, South Dakota, Gives Up Music for Americanism Work.

After years of study in America and Europe Mrs. Madge King Johnston, Aberdeen, S. D., national vice-president of the American Legion auxiliary, has sacrificed a career in music for Americanism work and to aid in relieving the condition of sick and wounded ex-service men.

Mrs. Johnston is in charge of stores in eight states where articles made by disabled fighters are sold. She is national chairman of the auxiliary's American committee and has specialized in the formation of citizenship clubs and organizations of children of ex-service men.

Before engaging in auxiliary work, Mrs. Johnston appeared as a concert artist in many western cities. This she relinquished for activity in behalf of ex-service men.

Her husband, Dr. M. C. Johnston, is a big game hunter and has brought down mountain sheep, elk, deer and bear in the Rocky mountains and moose in the Canadian woods. Mrs. Johnston has accompanied him on many hunts.

### Y. M. C. A. HELPS PRISONERS

Men Confined in "Disciplinary Barracks" at Governor's Island, Appreciate Training.

Thanks to the Y. M. C. A. many of the "disciplinary barracks" maintained by the United States for its soldiers who fracture the rules that govern the back private and officer alike aren't all dark walls and dark living. Such a one is historic Fort Jay at Governor's Island, New York harbor, where between 200 and 300 soldiers are usually confined, most of whom are "in" for minor offenses. A few, however, are being "cared for" only a few days, prior to their taking up a longer residence at Fort Leavenworth, the army prison.

Col. John E. Hunt was commanding officer of Fort Jay during the World war, and he introduced "Y" activities for its inmates. Since that time the secretaries have kept up their work. The "Y" is housed in the first building of its kind the organization ever built in this country. Every Wednesday the confined men are allowed to attend the "sing-song," and about 175 of the men make the walls resound. The Sunday evening religious service is even better attended, more than 200 taking part.

Another feature of the work is the teaching of volunteer instructors of educational subjects. Spanish and French courses, together with reading, writing and arithmetic, are proving the most popular subjects. The men show a desire to absorb as much knowledge as possible during their period of confinement.

Sincere. "Sir," said the youth respectfully, "I am a poor man and you are a millionaire. I know it seems presumptuous in me to aspire to the hand of your daughter, but my love for her is so great that I must overstep conventions."

The great man seemed interested. "But I have four daughters—which do you wish?" he asked, not unkindly. "Oh, sir," replied the lover breathlessly, "I'll leave that to you."—The American Legion Weekly.

### "BILLY SUNDAY OF LEGION"

Dan Hollenga, Lecturer, Former Stretcher Bearer, in Demand in All Parts of Country.

Sixteen months' service as a stretcher-bearer in France should be excellent preparation for a battle in behalf of disabled fighters of the World war. Dan S. Hollenga, special representative of the American Legion's service division at Washington, D. C., is now carrying the sick and wounded over the shell holes of red tape in an effort to obtain compensation and hospitalization for ex-service men.

Although he was born in Holland, Mr. Hollenga had little difficulty in mastering the "American" language. As a speaker for the Legion in all parts of the country, his oratorical ability has become so well known that he is called "Billy Sunday of the American Legion."

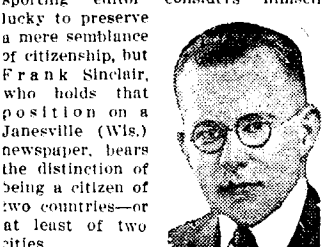

A citizen of the United States for a number of years, Mr. Hollenga volunteered as a private shortly after war was declared. He was soon made a drill sergeant, but found no joy in this "squads right" career because of his desire to get to France. He obtained a transfer to Base Hospital 65 and served with this unit overseas.

When the war ended Mr. Hollenga spent more than a year organizing chambers of commerce in the South, and then served as a field representative for the Legion. He was later appointed director of organization at Legion national headquarters and served in that position until National Commander Hanford MacNider sent him to Washington as a personal representative to aid disabled ex-service men in obtaining justice from the government.

### CITIZEN OF TWO COUNTRIES

Frank Sinclair, Historian of Jamestown (Wis.) Post, Honored by Bourges, France.

The average American newspaper sporting editor considers himself

lucky to preserve a mere semblance of citizenship, but Frank Sinclair, who holds that position on a Jamestown (Wis.) newspaper, bears the distinction of being a citizen of two countries—or at least of two cities.

Sinclair, who is historian of the Jamestown post of the American Legion, was honored with citizenship in the city of Bourges, France, while a regimental sergeant major with the Central Records office, G. H. Q., stationed in the French town.

The honor, usually conferred only upon high governmental representatives, was given to Sinclair for promoting closer relations between the Yanks and citizens of Bourges through the medium of "The Cro," largest post newspaper in the A. E. F., of which Sinclair was managing editor and co-author. The common council of Bourges awarded the honor. Lawrence F. Weidman, Boston, and William F. Wrang, Brooklyn, were also made citizens for co-operating in Sinclair's diplomatic work. Sinclair and Weidman also won renown as the authors of "The Battle of Bourges," which a Paris English language newspaper said should be in every American home.

### For Pity's Sake.

The U. S. S. —no matter, it was the U. S. S. something—was on its way to France. It was a rough night, and the only persons visible on that part of the deck were Gubbins, the worst gosh in the navy, who was doing deck guard, and Lieutenant Commander Glibet, the gruffest and most generally unpopular commander in any navy. Suddenly there was a splash, as the ship gave a lurch, and no more lieutenant commander was to be seen.

Gubbins wrestled with his conscience for a moment, then gave up the struggle, dove in, and grabbed his superior by the neck as he was going down for the third time.

"Gubbins," gasped the latter, "I thank you. If we are rescued I shall do anything I possibly can for you."

"Sir," answered Gubbins, "if it isn't asking too much, would you mind not telling the gang who it was that saved you? They'd half kill me."—American Legion Weekly.

### Carrying On With the American Legion

Tombstones, and even war memorials, are being bought from Germany by English and American cities, because Germany is able to underbid other markets.

Breezy letters from home-town buddies are being sent wounded Kansas soldiers in a hospital at Fort Bayard, N. M. The barrage was set up by Kansas posts of the Legion.

A pilotless plane is becoming the sensation of the Villacoublay airrome, France. Controlled by wireless from the ground, the plane circles far and wide over the countryside.

Commander MacNider, one senator and one representative will form President Harding's commission to control the erection of American war memorials on European battlefields.

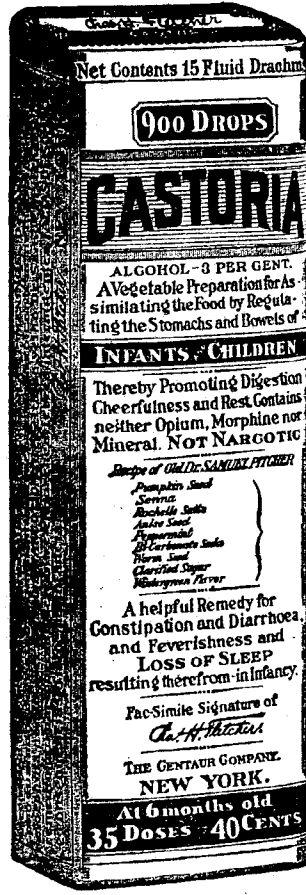

From the breasts of 17 members of New York's police force will gleam a new badge, the French police medal. This number and several secret service men have been awarded the medals with citations for the excellent care they took of Marshal Foch and Premier Briand when the two notable Frenchmen visited this country.

## Why Castoria?

YEARS ago Castor Oil, Paregoric, Drops and Soothing Syrups were the remedies in common use for Infants and Children; Castor Oil so nauseating as to be almost impossible and the others all containing Opium in one form or another, but so disguised as to make them pleasant to the taste, yet really to stupefy the child and give the appearance of relief from pain.

It required years of research to find a purely vegetable combination that would take the place of these disagreeable, unpleasant and vicious remedies that from habit had become almost universal. This was the inception of, and the reason for, the introduction of Fletcher's Castoria, and for over 30 years it has proven its worth, received the praise of Physicians everywhere and become a household word among mothers.

A remedy ESPECIALLY prepared for Infants and Children and no mother would think of giving to her baby a remedy that she would use for herself, without consulting a physician.

## Children Cry For Fletcher's CASTORIA

### Have You Tried It?

Everybody has read the above headline; how many believe it? Have you a little one in the home, and has that dear little mite when its stomach was not just right felt the comforts that come with the use of Fletcher's Castoria? You have heard the cry of pain. Have you heard them cry for Fletcher's Castoria? Try it.

Just help baby out of its trouble tomorrow with a taste of Castoria. Watch the difference in the tone of the cry, the look in the eye, the wiggle in the tiny fingers. The transformation is complete—from pain to pleasure. Try it.

You'll find a wonderful lot of information about Baby in the booklet that is wrapped around every bottle of Fletcher's Castoria.

Predictions. Visionaries are predicting that the airplane will take the place of the tute.

A few years ago they were predicting that the auto would "drive out the horse."

Now comes the government, reporting that the country still has 10,099,800 horses, compared with 10,833,113 in 1910.

We have about 10,000,000 motor-cars, along with nearly twice as many horses as 12 years ago—and find we need both.

That will be the auto's future. Airplanes will fly by millions. Use of autos will increase. The two together will be insufficient to furnish man with enough transportation, one thing we are always behind on.

### Not Sufficiently Versatile.

The Jaxons, like every other set of parents with a four-year-old, have a four-year-old prodigy, who, despite his remarkable advancement for one of his immature years, has to wrestle with the language of the immortal Declaration much as Jaxon had to wrestle with the Sunday roast fowl.

It was an unmitigatedly tough fowl and a piece of the doughty bird had stuck in the youngster's throat. Retrieving it deftly with his fingers he registered this plaint:

"Mother, this won't swallow down my neck. It'll just chew."

Just So.

"Husband and wife in a bridge game usually make a poor score." "Yes, and they rake up so many old scores."

## LOCAL NEWS

Don't miss the base ball dance at  
the School gymnasium tonight. Music  
by Schram's Ramblers.

Farmers are invited to attend a  
Fordson Tractor demonstration at the  
R. Hanson fields near the mills, Sat-  
urday afternoon, May 13 at 2:00  
o'clock. We just received a car load  
of these machines and can make im-  
mediate delivery. Come and see them  
in operation. George Burke.

Every member of the Women's aux-  
iliary of the American Legion is re-  
quested to attend the meeting at the  
G. A. R. hall next Friday evening,  
May 12. This will be a very impor-  
tant meeting, to ascertain whether the  
Women's Auxiliary in Grayling will  
continue or not. Show by your pres-  
ence that you wish the organization  
maintained.

Base ball dance at School gymna-  
sium tonight.

The Aetna Life Insurance company  
is represented in Grayling by J. Fred  
Alexander.

Mr. and Mrs. George Sorenson left  
Monday afternoon with their young-  
est son Alfred for Grand Rapids,  
where the little fellow was to have  
his right eye removed and replaced  
with an artificial eye. Some years  
ago the little boy fell with a knife in  
his hand and received quite a severe  
injury to his eye, but it did not harm  
his sight, but this spring while at  
play he received a bad bruise to this  
same eye that caused him a great deal  
of pain. Last week Mrs. Sorenson  
took the lad to consult a specialist in  
Grand Rapids who said an operation  
would be necessary, otherwise the  
sight of the other eye would become  
impaired.

Six young ladies entertained with  
a miscellaneous shower on Friday  
evening of last week, in honor of Mrs.  
Edward W. Creque, Jr., of Flint. The  
guests included the members of the  
T. S. T. card club and a number of  
others, making up a party of twenty-  
five. While there were four tables of  
cards in progress, a number who did  
not wish to play cards hemmed dust  
cloths. At about eleven o'clock the  
guests were treated to dainty re-  
freshments on the small tables. Mrs.  
Creque who was formerly Elvira Un-  
gerhill became a bride last October.  
This was her first visit to Grayling  
since her marriage. She received  
many useful and beautiful gifts from  
her friends. Mrs. Harold Rasmussen  
held the highest score for "500" and  
Miss Erdine McNeven was awarded  
the consolation prize.

Tomorrow is Hospital Day, and you  
are invited to visit Mercy Hospital be-  
tween the hours of two and five that  
afternoon for tea.

Rev. and Mrs. Bodine, who have  
been making their home in Grayling  
for the past few months, have moved  
back to their home in Manton. How-  
ever Rev. Bodine comes to Grayling  
every Sunday to hold services at the  
Free Methodist church until another  
minister can be obtained. Burt Mit-  
chell and family have moved into the  
house they vacated on the school sec-  
tion road.

Thos. Nolan of Lansing, a former  
citizen of Grayling, arrived last week  
and is a guest at the home of Mr. and  
Mrs. Will Havens on Cedar street. He  
is accompanied by Mrs. John Nolan,  
a daughter-in-law, who formerly re-  
sided here and was Miss Kittie Tru-  
man. Mr. Nolan came to Grayling 35  
years ago and while here was proprie-  
tor of the old Grayling hotel. He also  
served several years as undersheriff  
of Crawford county. He and his fam-  
ily left Grayling 13 years ago and took  
up their homes in Lansing. Mr. No-  
lan says he is enjoying his visit  
among his old friends, all of whom are  
glad to see him and welcome him back  
to the "Only town on the map."

A Holy Name Society was organiz-  
ed at St. Mary's church last Sunday.  
Following are the officers of the new  
organization: Thomas Cassidy, presi-  
dent; Angus McPhee, vice president;  
Joseph Cassidy, Secretary; Wilfred  
Laurant, marshal. The purpose of the  
organization is for the members to  
refrain from using profane lan-  
guage. Already there are a number  
enrolled and it is intended to have ev-  
ery man of the parish a member of  
the society, making the parish 100  
per cent. There is no cost whatever,  
only to make the promise to refrain  
from using the name of God without  
reverence, and the fine body of men  
will receive Holy communion in a body  
each month. Almost every church in  
the diocese of Grand Rapids boasts of  
a Holy Name Society.

"It is one medicine that does all  
that's claimed for it." Thousands  
have said it about Tanlac and so will  
you if you try it. A. M. Lewis, drug-  
gist.

### NOTICE OF LETTING CONTRACT.

Notice is hereby given that bids  
will be received at the office of Coun-  
ty Agricultural Agent R. D. Bailey,  
Grayling, Mich., for the construction  
of a house on my farm in Maple For-  
est, according to plans now on file at  
said office. Work on the house to be-  
gin about June 10, 1922. The right  
to accept or reject any or all bids are  
reserved. Bids to be opened.....  
The structure is to be six room  
and pantry and full basement.  
5-11-2. C. C. Fink.

### WHOOPIING COUGH.

This is a very dangerous disease,  
particularly to children under five  
years of age, but when no pargoric,  
codine or other opiate is given, is  
easily cured by giving Chamberlain's  
Cough Remedy. Most people believe  
that it must run its course, not know-  
ing that the time is very much short-  
ened, and that there is little danger  
from the disease when this remedy is  
given. It has been used in many epi-  
demics of whooping cough, with pro-  
nounced success. It is safe and pleas-  
ant to take.

### THE GOLDEN EGG-GOOSE.

Dear Editor and Citizens:  
In last week's issue of the Aya-  
lanche, I read an item about the trout  
season opening this week and advis-  
ing the people not to kill the goose  
that lays the golden eggs, "meaning the  
outside fisherman."

Of course this is correct in its way,  
but why take such care of the goose  
and not the gander, "meaning the  
farmers?"

We wish to state if your supervi-  
sor, and road commissioner would  
take a drive over the road to Maple  
Forest, by way of Kneelands, they  
would find out, that the goose that  
supplies Grayling with products will  
soon be killed using said road.

By traveling the Kneelands road,  
the Maple Forest farmers, can short-  
en the round trip about 12 miles, but  
the same old wheel tracks, made 40  
years ago still exist. It is just  
dodging from stumps and mud holes.  
As this road is partly in fertile and  
heavy land, there are places where  
the water holes stand nearly all sum-  
mer.

I notice that your trout stream and  
lake roads are kept in good condition,  
but what about the road for the  
farmers.

There is no reason why this road  
is in such condition, as it has been re-  
ported numerous times.

Only a few days ago the mer-  
chants of Grayling had an advertise-  
ment in your paper telling the people  
to come to Grayling to trade, but if  
farmers have to travel over such  
roads to get to town, they will natu-  
rally go a different road and to an-  
other town.

Now, I don't say kill the golden egg  
goose, but neither ought you kill the  
gander who farms, and supplies prod-  
ucts for said goose.

Yours truly,  
Archie Lozon,  
Maple Forest.

### WITHOUT STREET ADDRESS YOUR MAIL IS DELAYED AT OFFICE OF DELIVERY

The Dead Letter Office has been in  
existence ever since Ben Franklin  
started our postal service. Even then  
people addressed mail to Mr. Ezekiel  
Smithers, "Atlantic Coast," and ex-  
pected Ben to know just where Zeke  
lived.

Perhaps they had Zeke's address in  
letters up in the garret, maybe a chest  
full of 'em, but then it was easier to  
let Ben hunt Zeke. Today people are  
addressing letters to John Smith, New  
York, N. Y., or Chicago, Ill., thinking  
Uncle Sam can locate him, which is  
just as incomplete as was Zeke's ad-  
dress of yore. The Postoffice Depart-  
ment asks you to put the number and  
street in the address. It helps you.

## Trinidad Cal.

How do you expect the Postal Clerk  
to know whether you mean Trinidad,  
California, or Trinidad, Colorado?  
ALWAYS SPELL OUT THE NAME  
OF THE STATE IN FULL IN THE  
ADDRESS.

### "MORE BUSINESS IN GOVERNMENT"

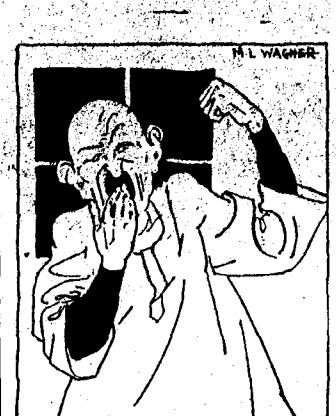

This apt phrase was used in Pres-  
ident Harding's first message to Con-  
gress and applies particularly in postal  
management where postmasters are  
being impressed with the fact that  
they are managers of local branches  
of the biggest business in the world.

### HERE COMES A STRANGER!

Let's make our post office look neat.  
Mr. Postmaster. Straighten up the  
rural letter box, Mr. Farmer. Tidy  
up some, Mr. Rural Carrier. First  
impressions are lasting. Maybe Mr.  
Stranger, taking notice of these im-  
provements, will come back, bringing  
you benefits. Start these with "POS-  
TAL IMPROVEMENT WEEK"

London.—The year 1926 is destined  
to shake the world to its foundation,  
both physically and politically. It is  
to be a succession of plagues, famine,  
floods, shipwrecks, rioting and revolu-  
tion. So says the British Journal of  
Astrology, which has drawn the horo-  
scope for that year, when the planets  
Mars and Mercury will be in conjunc-  
tion.

Six years later the great Armaged-  
don is to take place. It will be a final  
conflict between Mohammedanism  
and Bolshevism against the united An-  
glo-Saxon world. It will end in a  
"universal peace" in 1932, but "there  
will be so few of us left and we shall  
all be so tired that peace should hap-  
pen anyhow," the horoscope says.

C. E. Doty. The bride has been attending the Mercy Hospital Training school. The young couple will make their home in Grayling and have the well wishes of their friends.

There was a meeting at the Board of Trade rooms Monday night in the interest of base ball. Plans are being made for fixing up the ball park better than it has ever been before, and a new infield will be built on scientific plans. Bleachers will be built along one side of the Grand stand to accommodate the crowds and make them more comfortable. Manager Brenner says that prospects are good for the best team Grayling ever had.

A gay May party was given the children of St. Mary's parish at the K. of C. hall last Saturday afternoon. There was 36 children present and they were given one of the most pleasant parties that could be planned. Thirty mothers helped to make the affair a success by their presence. For entertainment five different contests were arranged and a prize was given to the winner of each. In the peanut carrying contest, Flossie Loskos won the prize; Donald Reynolds won the spelling contest, Fedora Montour and Corlie Loskos dressed the shopkeepers dolls, the best Albert Trudeau won the most peanuts in the peanut hunt and Marcella Sullivan and William Woods captured the prizes in the eating crackers and whistling contest. In the dining room a May Pole with its many gay streamers in the May colors was the centerpiece, and from it extended four tables attractively adorned with spring flowers, and at each place was a crepe paper napkin of the same dainty color as the May Pole streamers. The lunch was one of the most pleasing features of the afternoon. Everyone of the children seemed to enjoy the party very much.

Mothers' Day next Sunday. Are we civilized? Let's go to church. Sunday morning at ten-thirty there will be a special sermon at the Michelson Memorial church. Wear a flower.

Stop talking about your troubles. Take Tanlac. A. M. Lewis, druggist.

## Michigan Happenings

The Rev. Henry Brockman, pastor of the German Lutheran church in Stambaugh, near Iron River, shot and killed himself in his home May 1. A deputy sheriff was waiting in a downstairs room to take the Rev. Mr. Brockman to Marquette on a federal warrant charging violation of the Mann white slave act. The pastor asked to be excused for a minute while he got something to eat. Going to his room, he sent a bullet through his right temple. The officer, rushing upstairs, found the pastor dead.

Edward Vanvera, son of Mr. and Mrs. John R. Vanvera, wealthy mine owners of Marquette, was drowned when he went over the Upper Falls in the Sturgeon river in a canoe, a drop of 20 feet. His companion, Wing Agne, also the son of a wealthy Marquette lumberman, was with Vanvera in the canoe. He was saved by being washed ashore. The two were on a fishing expedition. Vanvera and Agne were seniors in the Michigan College of Mines in Houghton.

Hezekiah H. Duff, secretary of the Michigan securities commission, issued a warning to prospective buyers against a flood of Texas oil stock literature which is being sent into the state. Duff declares that the oil stock promoters are trying to get ahead of the new "blue sky" law now pending in the federal congress which when passed, will stop the mailing of literature dealing with "wild cat" promotions.

The solemn consecration of Msgr. Joseph Gabriel Platen, vicar-general of the Roman Catholic Diocese of Marquette, as Bishop of Superior, took place at St. Peter's Cathedral at Marquette May 3. Members of the Catholic hierarchy, priests from the Diocese of Marquette and the Diocese of Superior and from other parts of the country came in large numbers to participate in the ceremonies.

Frances Ames, of Lansing, a junior literary student of the University of Michigan, was elected president of the Ann Arbor Women's league. By virtue of her election, she becomes owner of the full-blooded Persian kitten with a pedigree something less than a yard long, which the Boosters' club of the campus recently purchased, to be given to the president.

The Rev. Charles D. Brokenshire, of Alma, while driving a recently-purchased automobile through Greenville, became excited and brushed the side of another auto. His machine then went over the curb and into the plate glass window of Erickson's grocery. The minister was badly cut by flying glass.

The new model, all-aluminum aeroplane, being tested at Selfridge field near Mt. Clemens, by Pilot Simmons, crashed about half a mile from the field. The pilot was not injured, as he was barely 100 feet in the air when the mishap occurred.

## FORMER SENATOR TAKEN BY DEATH

A. J. GRONNA, OF NORTH DAKOTA, WAS AN AUTHORITY ON FARM PROBLEMS.

AUTHOR OF FARM LOAN BILL

Had Re-Entered Political Ring As An Independent Candidate for G. O. P. Nomination for Senate.

Lakota, N. D.—Asle J. Gronna, former United States senator from North Dakota, died suddenly at his home here on the night of May 4. He was 64 years old. Mr. Gronna recently underwent an operation.

At the time of his death, Mr. Gronna, who had been ill for some time, was an independent candidate for the Republican nomination for the United States senate.

Mr. Gronna was regarded as an authority on farm problems during the years he served in the United States senate. He was author of several important bills, including the Federal Farm Loan and the Guaranty Bank Deposits Acts. He was chairman of the Senate agricultural committee.

The former senator was born on December 10, 1858, in Elkader, Iowa.

His parents brought him to Houston county, Minn., where he attended public school and the California academy. He taught school for two years in Wilmington, Minn., and moved to Dakota territory in 1879. Going to Duxton in 1881, he became clerk in a general store and postoffice.

In 1904 he was nominated for congressman and elected on the Republican ticket. Mr. Gronna continued as congressman until February, 1911, when he resigned to enter the senate. In a triangular race for the Republican nomination in 1914 he defeated Andrew Miller, present United States district judge for North Dakota, and John Worst, then president of the state agricultural college. Another defeated of the college, E. F. Ladd, defeated Mr. Gronna for the Republican nomination in 1920. Several weeks ago Mr. Gronna announced himself as a candidate for the senatorial nomination. His announcement outlined a program in sympathy with the farm bloc movement in congress.

Mr. Gronna is survived by a widow, three daughters and two sons.

FAMILIES OF MINERS EVICTED

Operators Turn Many "Undesirables" From Their Homes.

Uniontown, Pa.—First evictions of striking miners and their families, in the Fayette coke region took place last week at the mine of the Amend Coal and Coke company near here. A dozen families, it was reported to the county authorities, has been moved from company houses, and their belongings set out in the road. This, it was stated, was the beginning of a movement by operating companies to reclaim houses now occupied by what they termed "undesirables."

The evictions will be carried under direction of Sheriff Shaw, who it was announced, has detailed a squad of special officers to serve the necessary notices.

HOME COURT FOR WOMAN JUDGE

Will Hold Sessions in Parlor to Save Time for Housework.

Preepot, Ill.—Police court hereafter will be held in the parlor of her home, Mrs. Mildred Brandt, recently elected police magistrate of the village of Winslow, Ill., announced. She explained that by holding court sessions at home it would take less of her time from domestic duties, and that she would not need a downtown office. Mrs. Brandt previously had said she would not serve, but explained that she had changed her mind at the insistence of her friends, and would qualify for the office.

TEXAS TORNADO KILLS NINE

38 Others Hurt by Windstorm That Sweeps Through Austin.

Austin, Tex.—Nine dead, 38 injured, two probably fatally, and property damage estimated at \$400,000, was the toll of death and destruction in the wake of a tornado which last week swept through the west side of Austin and on out of the city to Oak Hill, eight miles southwest.

Four members of the Barsley family at Oakhill, eight miles south of here, were reported as among those killed. Another of the family was reported seriously injured.

Lovers in Duel to Death.

Philadelphia—"He stole my girl," These words, gasped out by Harry Stinger, 35 years old, as he breathed his last are the only explanation police have of a mysterious duel to the death between Stinger and a tender, lovin' character, known as "Buck" Bailey, in the dark depths of a tenement rooming house which resulted in the death of both principals. The "girl," said to be named Annie Murray, escaped in a motor car following the tragedy.

Lone Bank Robber Gets \$3,000.

Lima, O.—A lone robber, well dressed and unmasked, secured \$3,000 in currency at the Dime Savings bank here in a hold-up. Firing a revolver at Ernest Mills, cashier, the robber jumped over the counter, and grabbed piles of currency which he placed in a grip. Confederates in an automobile were waiting. Mills was unhurt. Other bank employees were driven to a vault before a fusillade of shots, but none was hurt. Police chased the robbers' car, but were out distanced.

## BEVERIDGE BEATS NEW IN INDIANA PRIMARY

ALBERT J. BEVERIDGE

Indianapolis—The political comeback of former Senator Albert J. Beveridge, who was among the progressive party leaders in 1912, was registered by a majority of about 20,000 votes, in which Beveridge defeated Senator Harry S. New for the Republican nomination of United States senator at the November election.

Former Governor Samuel M. Ralston won the Democratic nomination and will oppose Mr. Beveridge at the November election.

DEATH TAKES HENRY P. DAVISON

Financier Was Widely Known as Red Cross Head During War.

Glencove, Long Island—Henry P. Davison, member of J. P. Morgan & Co. and a power among international bankers, died May 6 while on the operating table in his palatial home, "Peacock Point."

Death came while Mr. Davison was partially under the effects of ether. The operation was for the removal of a brain tumor. This was the second operation that he had undergone for the trouble within a few months. He was in his fifty-fifth year.

Close friends estimate that the financier left an estate of about \$10,000,000. He carried a large amount of life insurance, but the figure has not been ascertained. Mr. Davison's public benefactions were large.

SAYS ALL SHOULD LIVE TO 100

Health Officer Says It Is Your Fault If You Don't.

New York—It is your own fault if you fail to be 100 years old, according to Dr. Royal S. Copeland, New York commissioner of health.

In an address before the Rotary club, Dr. Copeland said there was no reason why every man and woman in the United States should not live to be 100.

There are 3,500 people in the country over 100 years of age, he said. "A man 50 years of age who is 50 pounds overweight has lessened his length of life 50 per cent," said Dr. Copeland. "This has been proven by statistics of life insurance companies after studying 500,000 policy holders' span of life."

RUSSIAN PLOT BAKED IN PARIS

Police Discover Espionage System Organized by French.

Paris—Claiming to have discovered existence of a highly developed espionage system organized by communists in France for benefit of Russian Soviet government, the French police made three arrests in connection with the alleged plot and promised numerous others.

The espionage scheme, they declare, involves 211 operatives, and has ramifications in Brest, Lorient, Toulon and also at powder factories in the center of France, and arsenals in the vicinity of Paris.

TO HELP BUSINESS, N. Y. CENTRAL ISSUES BIG INDUSTRIAL DIRECTORY.

Railroad Reference Book Classifies 50,000 Concerns, With Information for Buyers and Shippers.

Aimed to be a business-developer, the New York Central Lines have issued and are distributing gratis to shippers the largest railroad reference book of its kind ever published. It contains the names of more than 50,000 individual concerns on its rails, all classified by commodities, localities and railroad facilities.

The purpose in assembling the Directory lists was to bring the various industrial and business activities into more ready and intimate touch with one another for mutual benefits. The volume's portrayal of railroad service

was aimed to aid shippers in directing their traffic and new enterprises in locating their plants most advantageously.

The volume has 1000 pages, including 20 specially-drawn maps, one 20 x 28 inches showing in color the entire New York Central system, and others charting the existing railroad terminal facilities of the big cities.

There are more than 400 half-tone illustrations. The book gives facts and figures useful to business men covering the whole territory served by the 13,000 miles of New York Central lines, which enter twelve states and the two busiest provinces of Canada.

Communities Described. Communities along the lines are described and pictured with special reference to advantages they offer

for industries. Five hundred pages are devoted to the classified, indexed lists of manufacturers, wholesalers, jobbers, contractors, retail merchants, grain elevators, electric light and power plants, coal operators and dealers, and agricultural producers. Stock yards, feeding stations and packing plants are noted.

Commercial and kindred business organizations with the names of their presidents and secretaries and number of members, as well as all banking institutions located on the New York Central system, are alphabetically listed. Every railroad station of the system, with its connections, is listed alphabetically, together with up-to-date lists of railroad officers in charge at all points.

Articles by experts deal with the best packing methods and avoidance of loss and damage to freight.

A feature article by Charles Frederick Carter, the noted writer on railroad topics, gives in tabular form the physical properties of the service rendered, and the future development and financial requirements of the New York Central system.

The book can be examined at the office of this newspaper, and requests for copies of it may be sent direct to the Publicity Department, New York Central Lines, Grand Central Terminal, New York.

The laxative effect of Chamberlain's Tablets is so mild and gentle that you can hardly realize that it has been produced by a medicine.

### Cheerful Rooms

Do you want a more cheerful home? You can have it, by selecting the correct patterns and color combinations in wall paper.

Many a woman's reputation for good taste and cheerful home making abilities has been gained by her happy selection of wall paper.

Fortunately it isn't a question of money; the most attractive interiors are often the least costly.

### ANOTHER GOOD AGRICULTURAL PROGRAM.

The following program in the interest of farmers was held at the G. A. R. Hall last Saturday afternoon and proved to be a very fine one to listen to:

Mr. Marcus Schaaf, State Forester, gave a very interesting talk on windbreaks, and their value in regards to agriculture and as a farm asset. He told of their use at the State Forestry nursery at Higgins Lake, also of species to use, kind of soil, method of reinforcing for effectiveness, size best adapted for transplanting, also on farm wood lots and utilizing waste lands.

Miss Anne Walton, our county health nurse had prepared a very valuable paper on public health which was greatly enjoyed.

Mr. H. C. Rather, Secretary-Treasurer of the Michigan Crop Improvement Association, also of the Farm Crops Department of the M. A. C. gave a very instructive talk on more profit in crops through efficient production and marketing.

He said conditions in Michigan had not been as bad as elsewhere because of diversification and efficient distribution.

He said the farmer should cut down production and study distribution more; that marketing is a great problem.

He spoke of fertility and up-to-date methods of improving it, also of the value of alfalfa, sweet clover, and many other crops. He told why sweet clover is better than alfalfa for certain conditions. He told of the certain value of inoculating legumes.

He told of the superiority of Grimm alfalfa, rosen rye, black barless barley, robust beans, and pure seeds in general. He told of caution needed in feeding highly progenous feeds, and said sweet clover never causes bloat.

There was a very small attendance and the Grange Lecturer expressed his fear that it would be difficult to get it impossible to obtain more special-interest from the M. A. C.

It does seem as if the farmers of Crawford County are pretty much satisfied with prevailing conditions and think they know all there is to know about farming. Clifford Merrill.

### WHY SUFFER SO?

Why suffer from a bad back, from sharp, shooting twinges, headaches, dizziness and distressing urinary troubles? Grayling people recommend Doan's Kidney Pills. Ask your neighbor. Could you ask for stronger proof of merit?

Mrs. B. J. Conklin, Grayling, says: "I had kidney trouble and my back felt weak, sore and lame, especially mornings after getting up. I felt so tired I could hardly do my work and a dull ache seemed to settle in the lower part of my back, and when I reached up or stooped a sharp pain was sure to catch me. I couldn't sleep well at night and became nervous and worried a lot. I was irritable and dizzy at times and I had headaches and my kidneys were weak and irregular in action. I was in a run down condition when I heard of Doan's Kidney Pills and purchased a few boxes at Lewis' Drug Store but after using them I felt like a different person. Doan's cured me."

Price 60c. at all dealers. Don't simply ask for a kidney remedy—get Doan's Kidney Pills—the same that Mrs. Conklin had. Foster-Milburn Co., Mfrs., Buffalo, N. Y.

### LUMBAGO.

This is a rheumatism of the muscles of the back. It comes on suddenly and is quite painful. Every movement aggravates the disease. Go to bed, keep quiet and have Chamberlain's Liniment applied and a quick recovery may be expected. Mrs. F. J. Dann, Brockport, N. Y., writes: "I can honestly say that Chamberlain's Liniment cured me of lumbago a year ago last summer. When I began using it, I was flat on my back in bed and could not turn to the left or right. I had a bottle of Chamberlain's Liniment in the house and this was applied to my back. It promptly drove away the pains and aches."

### EVILS OF CONSTIPATION.

Perhaps the most serious of the diseases caused by constipation is appendicitis. If you would avoid this dangerous disease, keep your bowels regular. For this purpose Chamberlain's Tablets are excellent, easy to take and mild and gentle in effect.

### \$100 Reward, \$100

The readers of this paper will be pleased to learn that there is at least one dreaded disease that science has been able to cure in all its stages and that is catarrh. Catarrh being greatly influenced by constitutional conditions requires constitutional treatment. Hall's Catarrh Medicine is taken internally and acts thru the blood on the mucous surfaces of the system thereby destroying the cause of the disease, giving the patient strength by building up the constitution and assisting nature in doing its work. The proprietors have so much faith in the curative power of Hall's Catarrh Medicine that they offer One Hundred Dollars for any case that fails to cure. Send for list of testimonials. Address F. J. CHENEY & CO., Toledo, Ohio. Sold by all Druggists, etc.
